

Post-Event REPORT ON

"Architecture conceived as a work of art"

Date: 14^h November,2018

Resource Person: Architect Simone Micheli and his associate Mrs. Maria Gabriela Strazier, Italy.

Summary

Architect Simone Micheli with his colleague Mrs. Maria visited MBS School of Planning and Architecture on Wednesday, 14th November,2018 for an informative, interactive session with the students of second year.

Italian architect and designer Simone Micheli (1964) was in 1990 the founding partner of his own architecture studio. His design is based on efficiency and sustainability, premises which are taken into account when shaping his unique creations which have strong identities of their own. He has various international awards such as the 2008 Los Angeles International Design Award and the 2011 Venice Tre Number One Award, among others. His professional practice is in multiple directions from architecture to interior design, and from industrial design to visual design by the way of communication. His creations, sustainable and always environmentally conscious, are characterized by strong identity and uniqueness. The numerous projects he has carried out for local government bodies and major private patrons active in residential and community building have made him one of the main players in the field of architectural design in Europe.

Simone Micheli gave a lecture presenting his works focusing on contemporary architecture. The title of the seminar was "**Architecture conceived as a work of art**". The interactive session included a video of different works of Mr. Micheli focusing on the contemporary architecture trends in Italy and in the world. He explained how his projects were
